# LỜI MỞ ĐẦU

Kiểm tra – đánh giá là một hoạt động quan trọng trong quá trình học tập bộ môn tiếng Anh. Nhằm giúp các em có nhiều cơ hội hơn để đánh giá kiến thức bộ môn tiếng Anh lớp 8 đã được tiếp thu ở nhà trường phổ thông, chúng tôi mạnh dạn biên soạn tập sách “*English Practice 8*” giúp các em có điều kiện thực hiện việc tự kiểm tra chính mình.

“*English Practice 8*” được biên soạn theo tinh thần đổi mới phương pháp kiểm tra – đánh giá học sinh, bám sát giáo khoa lớp 8 do Bộ Giáo dục Đào tạo phát hành.

Các bài tập trong sách “*English Practice 8*” được biên soạn từ dễ đến khó, từ đơn giản đến phức tạp theo tính chất: nhận biết – thông hiểu & vận dụng.

Mỗi Unit ở sách giáo khoa Tiếng Anh lớp 8 đều có một lượng bài tập tương ứng (khoảng từ 1 đến 10 bài tập) nhằm khảo sát, đánh giá các kỹ năng mà học sinh cần đạt được theo mục tiêu mà các Unit đã đặt ra. Cuối mỗi Unit có một bài tập tổng hợp (Test for Unit) nhằm kiểm tra toàn bộ yêu cầu trong Unit đó.

Sách “*English Practice 8*” còn là tài liệu tham khảo bổ ích cho quý đồng nghiệp đang giảng dạy chương trình tiếng Anh lớp 8.

Mặc dù đã có nhiều cố gắng trong việc tìm kiếm, chọn lọc và trình bày nội dung của cuốn sách song vẫn không tránh khỏi những thiếu sót nhất định. Chúng tôi kính mong bạn đọc góp ý, chỉ dẫn để cuốn sách được hoàn thiện hơn.

Mọi thư từ góp ý xin gửi về: Trung tâm sách Alpha – 225<sup>C</sup> Nguyễn Tri Phương, quận 5, Tp. Hồ Chí Minh. Điện thoại: 08.8107718, 0903701650, email: alphabookcenter@yahoo.com.

Xin chân thành cảm ơn.

I really feel like leaving home, but I'm only fifteen. My mum and dad are so strict, they won't let me do any of the things my friends do. For example, on a Saturday evening, everyone went to the disco but my parents said I had to be home by 9 o'clock and the disco didn't finish until twelve. It's really unfair and everyone laughed at me and called me a baby.

Also my mum goes into my bedroom when I'm at school and I'm sure she looks through my things. When I ask her not to, she says it's not my house, and I'm too young to have a private life. They treat me as if I was still a child and won't trust me to do things on my own. I want to get job on a Saturday but they say I have to do homework, then help look after my younger brother. If they won't change, I'm going to run away and they'll be sorry.

	T	F

You may use the telephone every day but how much do you know about it. The telephone was invented by Alexander Bell in 1876. Bell was born in Scotland in 1847. But in 1870 the Bells decided to emigrate to America. They lived in Boston where Alexander taught in a school for the deaf. Bell was always interested in sound. He wanted to be able to send sound through a wire. He had a workshop in his house and did many experiments there, for years Bell and his assistant Thomas Watson worked day and night. They tried to send speech through a wire.

One day, he was doing an experiment in his workshop. He was careless and spilt some burning liquid onto his clothes. Talking into his telephone, he said: "Mr. Watson, I want you to come over here immediately, please." His assistant, Watson was in another room far away from the workshop. However, he heard Bell clearly on his own telephone. Quickly, he ran to Bell's workshop. "Mr Bell, I heard every word you said", Watson shouted excitedly. Bell had finally succeeded. He had invented the first telephone. Later other inventors made better ones, but the way the telephone works is still the same.

John Logie Baird, who is called "the father of television" was born in Scotland in 1888. He became an inventor at the age of 26. In 1923, he became interested in the idea of pictures by radio. He started working in his bedroom with a torch, a knitting needle, a few parts from a radio; a wooden box and some cardboard. He worked for several months, and the following year he succeeded in transmitting the first "television" picture a few meters across the room. In 1926 he showed it to the public at the Royal society.

In 1928, he transmitted the first picture across the Atlantic and in 1929, the BBC and the German Post Office began to America called the Marconi-EMI system. This used electronics instead of moving parts.

In 1936, the BBC decided to choose the electronic system from EMI after the competition between the two systems.

Baird was very unhappy, but there was nothing that he could do. For the rest of his life, he tried to develop new ideas but had no success. In the end, he became ill and died in 1946 at the age of 57.

Most people need seven to eight hours of sleep a night. Some people need less than this, and some people need more.

According to sleep expert, Dr Robert Schachter, many people have difficulty sleeping, but they do not know why. Most people know it is important not to drink coffee or tea before they go to bed- both beverages have caffeine. Caffeine keeps people awake. However, not everybody knows that some medicines, such as cold tablets, also have caffeine in them. Stress can cause insomnia, too. Busy people with stressful jobs may not sleep at night.

Dr Schachter suggests: "You shouldn't use your bedroom as a TV room or an exercise room. You should use it for sleeping only. It's a good idea to have a regular sleeping schedule. Get up and go to bed at the same time every day. It's also important not to eat before bed time.

Eating may keep you awake".

And if all this doesn't work, try counting sheep!

### **LEARNING ENGLISH**

It is not easy for adult students of English to improve their accents. Unlike children, who are flexible, adults often find it hard to change the way they speak. This is why even the top, or smartest adult students have difficulty with pronunciation. There are several things that an international student can do to improve his or her pronunciation.

One method is to sign up for a pronunciation class. Studying pronunciation can help students to understand the rules of English, but in order to practise speaking, students often need to be exposed to English outside the classroom as well. This is why many students say that studying in an English-speaking country greatly affects their English. Living with native speakers can help students to pick up important cultural information. This can help to prevent misunderstandings that can occur when people from different cultures live together.

Living with someone from another culture can be difficult. International students are usually excited when they first show up at their new homes, but after a few months they may start to think about their home countries and get homesick. Students who are homesick and get depressed quickly. They might cry a lot or want to be alone. This makes it difficult for them to make friends with English.

1. Adult students of English cannot improve their accents because they are slow to change.
2. Most younger students cannot change pronunciation.
3. Attending a pronunciation class can be very helpful to adult learners who have problems with their pronunciation.
4. All that they need to improve their pronunciation is to practise more outside the classroom.
5. To avoid misunderstandings about cultures, students should live with native speakers.
6. Many students feel depressed because they cannot improve their pronunciation.
7. On their arrival, most international students may forget about the problems because they are very excited.
8. The passage implies that adult learners shouldn't study English in an English-speaking country to avoid these problems.

### A YEAR WITH OVERSEAS VOLUNTEERS

I was with Overseas Volunteers (OV) for a year after leaving university, and I was sent to an isolated village in Chad, about 500 km from the capital N'Djamena. Coming from a (1)\_\_\_\_\_ country, I got quite a shock, as conditions were much harder than I had (2)\_\_\_\_\_. But after a few days I soon got used to (3)\_\_\_\_\_ there. The people were always very friendly and helpful, and soon I began to appreciate how (4)\_\_\_\_\_ the countryside was.

One of my jobs was to supply the village with water. The well was a long walk away. And the women used to (5)\_\_\_\_\_ a long time (6)\_\_\_\_\_ every day arranged to (7)\_\_\_\_\_ some pipes delivered. We built a simple pipeline and a pump, and it worked first time. It wasn't perfect - there were a few (8)\_\_\_\_\_ water before. And not (10)\_\_\_\_\_ did we have running water, but in the evenings it was hot, because the pipe had been (11)\_\_\_\_\_ in the sun all day.

All in all, I think my time with OV was a good experience. Although it was not well-paid, it was well (12)\_\_\_\_\_ doing, and I would recommend it to anyone who was (13)\_\_\_\_\_ working for a charity.

Finally, there's one more reason why I'll never (14)\_\_\_\_\_ working for OV. A few months before I left, I met and fell in love (15)\_\_\_\_\_ another volunteer, and we got married when we returned to England.

Antarctica is the most southern continent in the world. It is like nowhere else on earth. It is much larger than Europe, and nearly twice the size of Australia. It is an icy plateau with the south pole at its center. Antarctica is the coldest and windiest place in the world, even colder and windier than the North pole. In the summer, the sun shines for twenty four hours a day, but in the winter, it 's completely dark for about three months. Very few plants grow there, but there is some wildlife, including whales, seals and penguins.

When Captain James Cook sailed around the continent in the 1770s, he found no one living there. Today a few scientists work in Antarctica, but they only spend fairly short periods there. Many scientists in Antarctica are studying the ozone layer. The biggest "hole" is over Antarctica, where the weather is getting warmer. Scientists think that this cold and lonely place can teach us a lot about the earth and how to keep it safe.

	T	F
1. Europe is bigger than Antarctica

**CITY OR COUNTRY?**

Nowadays, there is an increasing number of arguments on whether you should choose the city or the country to live in. People are trying to prove themselves right through a lot of reasons. In fact, each place has its own advantages and disadvantages that always meet people's concerns.

Some people say that they do not like the noise and the stress in the city. Moreover, a place full of people like the city is always dangerous for their life. In the country, life is quiet, peaceful and relaxing, and especially very safe. They do not have to face the traffic jams, the pressure of work, or all the tricks that can come to them at any time. In addition, the city surroundings is so dirty with polluted air and water. Life is healthier in the country with clean, fresh air and lots of open space for children.

On the contrary, people who prefer big cities have a different point of view. In their opinion, city is a good place that can offer them plenty of things to do. They can enjoy a lot of job opportunities while more people in the country have to struggle for fewer chances. To the youth, the city is quite exciting compared to the boring country. There is lots of nightlife in a big city such as theaters, clubs, stores, etc. While the concept of nightlife does not ever exist in the country.

On the whole, everybody has his own reasons. It is definitely up to each of you to choose the best place for your living.

#### **CPR**

CPR stands for cardiopulmonary resuscitation. Cardio is a medical word for heart. Pulmonary is a medical word for lungs. Resuscitate means to bring back to life. CPR starts someone's lungs and heart working again after they have stopped

There are several situations when CPR is needed. It can be used when a person has a heart attack, and the heart stops. CPR can also be used when a person receives an electric shock. If enough electricity enters the body, the person dies immediately. CPR can resuscitate the person .

The third situation is drowning or dying in water, which happens most often in the summer when many people go swimming. Children can also drown when they are left alone near the swimming pool. These are the three most common causes of sudden death when CPR can be used.

CPR is an example of first aid. An ordinary person can take a first aid class and learn what to do until the patient receives professional help. This might mean helping someone until an ambulance comes. CPR can keep a person alive until he or she reaches a hospital.

**Pay As You Throw**

In communities with pay-as-you-throw programs, residents are charged for the collection of ordinary household trash based on the amount they throw away. This creates a direct economic incentive to recycle more and to generate less waste.

Traditionally, residents pay for waste collection through taxes or a fixed fee. Pay-as-you-throw (PAYT) treats trash services just like electricity, gas, and other utilities. Households pay a variable rate depending on the amount of service they use.

Most communities with PAYT charge residents a fee for each bag or can of waste they generate. In a small number of communities, residents are billed based on the weight of their trash. Either way, these programs are simple and fair. The less individuals throw away, the less they pay.

1.        PAYT stands for pay-as-you-throw.
2.        PAYT programs ask people to pay for the trash they throw away.
3.        In communities with PAYT households have to pay a fixed fee.
4.        Most communities with PAYT, residents have to pay a fee based on the weight of their trash.
5.        PAYT programs are fair because how much people pay depends on the amount of service they use.

**Bach Ma National Park – Hue**

Bach Ma National Park is located in central Vietnam (less than an hour drive from Hue city) and around 680 km from Hanoi. The national park covers an area of 22,031 ha and was created in 1991 to protect the centre of the last corridor of forest stretching from the South China Sea to the border with Lao PDR.

This area is home to a wide variety of animals and plants. There are species from both the northern and southern areas of the country and Bach Ma is recognized as one of the biodiversity centers of Indochina.

The highest point in the park, Bach Ma mountain, is 1450 m above sea level and only 18 km away from the coast. Visitors have been coming to Bach Ma since the 1930s, when the French Colonials built a hill resort here to escape the hot and humid plains during the summer months. The National Park has restored some of the villas built at that time, and is upgrading the services they offer.

The rich flora and fauna also attract many tourists. Bach Ma National Park is home to 233 species of birds and 55 species of mammals, as well as extensive vegetation of more than 500 species. Thus, the park does not only offer beautiful landscapes, but it also allows for scientific research.

**Exercise 7: Read the text and decide whether the statements are TRUE or FALSE.**

In the United States, the largest cities aren't always the capital cities. A good example is the capital city of Florida. Florida probably attracts the highest number of international tourists of any state in the U.S. Many tourists visit Miami, the biggest city in Florida (with a population of over two million people), but the capital of Florida is Jacksonville. It has a population of only one million people. An other example is the state of New York. New York City, perhaps the most international city in the world, is not the capital. The capital is Albany, a small city, with a population of only 94,000 people. A final example is the state of California, the oldest American state on the Pacific Ocean. Over 33 million people live there. Which's the largest city in California? Los Angeles, but the capital is Sacramento, with a population of only one million people

Hi Danny,

I'm at my friend's house in New York.

I came here three days ago, and we were very busy until now. Yesterday we went to the Ukrainian Festival. It was fantastic! There are many Ukrainian people in the area. They have wonderful clothes, amazing music and dances, and some delicious food. We ate *Varenyky*. That's a kind of pasta with potato and cheese inside. It's really good! We listen to music and watched the dancing all evening. It was great, and I'm going to come again next year! I hope every thing is OK at home.

### **Seven Modern Wonders of the World**

The ancient Greeks spoke of the Seven Wonders of the World. Recently, some engineers thought of this list of the seven wonders of our modern world:

The **Panama Canal**, begun in the 1880s, wasn't finished until 1919. It joins the Atlantic and Pacific oceans. Engineers describe the canal as a victory of humans over geography: workers dug huge amounts of land and tamed rivers. For 40 years after it was completed in 1931, the **Empire State Building**, in New York City, was the tallest building in the world. Amazingly, this 102 – story building was constructed in just 410 days.

The **Netherlands North Sea Protection Works** is another victory over geography. The Netherlands, which is below sea level, was often flooded by the North Sea and by rivers. Then, between 1927 and 1932, a dam was built to keep out the sea. Twenty years later, dams and canals were built to control the rivers.

The **Golden Gate Bridge**, completed in 1937, was also a challenge for workers: San Francisco bay has very strong winds and rough waves. The Golden Gate is still the world's tallest bridge. It has enough steel to wrap around the world three times.

At 1,815 feet, the **CN Tower**, in Toronto, Canada, is one of the world's tallest free-standing buildings. Completed in 1976, the tower is used for TV and radio broadcasting.

The **Itaipu Dam**, completed in 1984, goes across the Panama River at the Brazil-Paraguay border. It is the world's largest hydroelectric plant.

Completed in 1994, the **Chanel Tunnel** joins France and England. The "tunnel" is a remarkable convenience: cars, buses, trucks are all carried through the tunnel by train.

Bill Gates III is a very important person in the computer industry. He has been chief of Microsoft Corporation for several years. He is also the richest person in the United States. How did he do?

He learned a lot from his parents. While Bill was going to school, his father went to college, got a degree, and became a successful lawyer. From this Bill learned that you have to work hard if you want something. His mother was a very busy teacher, but she also enjoyed going to parties. From this, he learned something else: If you want to work hard and play hard, you have to make a schedule.

When Bill was young, he spent a lot of time alone. While most of his friends were playing, Bill read all of the *World Book Encyclopedia* and finished it when he was 8 years old.

Bill's childhood was not all work, however. He used to play a lot of sports - swimming, water - skiing, tennis. He was very serious about sports. He loved winning, and he hated losing. When Bill got older, he spent more and more time working and playing on a computer.

Before he was 20, Bill developed the world's first computer language for personal computer. Once when he was thinking about the future, he realized something important. He thought that every home was going to have a computer, and every computer would need software - his software. He said, "I'm going to make my first million dollars on software by the time I'm 25." And he did!

- \_\_\_\_\_ 1. Bill Gates learned that you have to play hard for what you want.

**VII. Read the passage about Louis Braille and say the following statements are true (T) or false (F)**

**Louis Braille (1809 – 1852)**

Louis Braille was the son of a French leather worker. He went blind at the age of three when he fell on a tool in his father workshop. But Louis was a brave and talented boy. He wanted to be a musician, so he learned to play the cello, and at the age of ten he won a scholarship to the National Institute for Blind Children in Paris. He could play the cello, but he could not read or write.

In 1819 a French soldier, Charles Barbie, invented 'night writing'. He used patterns of twelve raised dots on paper so that soldiers could read in the dark. Louis Braille understood the importance of this invention for blind people and when he was fifteen, he began to develop it. He made it simpler, with six dots, not twelve. In 1829, he introduced it to the institute.

By 1932 'Braille' was in use all over the world in many languages, but unfortunately Louis died of tuberculosis in 1852 and never knew of the importance of his invention.

- \_\_\_\_\_ 1. Louis Braille was English.
- \_\_\_\_\_ 2. His father was French.
- \_\_\_\_\_ 3. He went blind when he was six.
